

## **DEVELOPMENT TEAM LEAD**

### **Constellation HomeBuilder Systems**

#### **THE POSITION**

The successful Development Team Lead reports into our Program Manager for the homebuilding industry's leading-edge enterprise software product.

The Development Team Lead owns the quality and organization of the code base, interfaces with customers, and advises on how to maximize stable throughput within context of the broader ERP. Responsibilities include:

- Hands-on code development for highly responsive and resilient solutions
- Conducting code reviews for all code the product's development team delivers to QA
- Accountable for documenting all system & implementation requirements the software has
- Caring deeply about user experiences, implementations, and the ongoing operational success that turns a product that customers need into a product they want for life
- Distributing work for high velocity and quality deliverables, overseeing and mentoring of onshore/offshore developers
- Ability to manage work items in tight deadlines
- Diligence and attention to detail in the team's record-keeping within corporate systems
- Participate in product evolution strategies
- Doing whatever it takes to make the product or service useful, exciting, and successful

#### **QUALIFICATIONS AND SKILLS**

- Be working from the Markham Ontario office
- Experience building multi-tier, distributed web solutions with an emphasis on Responsive Design
- Understanding of software development best practices, using a common code repository within a multi developer team environment, effective implementation strategies
- Must have all the following hands-on competencies:
  - Angular Material
  - TypeScript
  - ASP .NET MVC 5.0+
  - .NET 4.7 or above with asynchronous programming experience
  - SQL query and stored procedures
- Strong in managing application source code for a product team
- Understanding of software development best practices, effective implementation strategies, with the skill to optimize a high performing software delivery team
- Nice to have: BreezeJS

## WHAT YOU'LL LOVE ABOUT US

- Doing work that has direct impact to customers and an industry
- Working with a team of confident, self-starting, and persistent people with visible passion
- Opportunity to work outside of one's comfort zone and within the thrill of a fast paced environment
- Corporate bonus program
- Great health and dental insurance benefits

## ABOUT THE COMPANY

Constellation HomeBuilder Systems is the leading software provider exclusively focused on the homebuilding industry. Our comprehensive suite of software solutions ranges from production and accounting, new home sales and marketing, home warranty and service, and homebuilder website solutions. We are the fastest growing and most successful provider of fully integrated information management solutions for homebuilders.

Our parent company is Constellation Software Inc, a well-capitalized, publicly traded company that specializes in vertical market software. Join our team for the benefit of working with a medium sized company while enjoying the support and opportunity of being part of a large organization.
