

Front-end Applications Engineer

MARKHAM, ONTARIO

THE POSITION

The Perseus Group, a division of Constellation Software (TSX:CSU), is seeking a Front-end Applications Engineer for the Constellation HomeBuilder Systems group in the Markham, Ontario office. The role will report to the Director of Custom Development, Constellation HomeBuilder Systems.

This role is perfect for an individual who is looking for a fast-paced environment that allows for rewarding challenges and a trajectory for long-term growth. If you are a strong performer looking for meaningful and challenging work, we would love to talk to you about this unique opportunity. We are focused on changing the homebuilding industry through great software and services and are looking for exceptional people to join us. The custom projects team is looking for dynamic individuals to help drive digital transformation in the new home sales and construction industry.

We are focusing on delivering high-fidelity user experiences for public websites and internal applications in high-intensity, multi-stakeholder environments spanning organizational boundaries and technology platforms. This position is open to both experienced professionals and recent graduates with good understanding of modern web-based front-end paradigms (JavaScript/TypeScript reactive programming), foundational technologies (HTML, CSS, W3C DOM APIs) and popular frameworks and libraries, specifically Vue, React and Angular.

Strong passion to advance your knowledge beyond your comfort zone, persistent desire to tackle unexpected complexity, and the ability to constantly iterate on the identified solutions are essential to succeed.

JOB RESPONSIBILITIES

- Implementing rich interactive experiences using the web application stack per the approved business and technical requirements
- Active participation in design specifications, requirements discussions and application architecture decision making
- Consulting and collaborating with partner teams on shared codebases
- Providing assistance with complex deliverables deployment

JOB QUALIFICATIONS

- Ability to manage and prioritize competing deliverables in a fast-paced environment
- Strong communication skills
- Understanding of JavaScript and TypeScript and associated development tooling
- Intermediate knowledge of the modern HTML/CCS stack and approaches to responsive design implementation
- Exposure to and deep interest in front-end frameworks: Vue (primary), Angular, React; all other frameworks a strong bonus
- Basic familiarity/understanding of .Net and NodeJS server-side stacks and associated tooling

- Experience with SQL-based (e.g. Microsoft SQL Server) and No-SQL (e.g. MongoDB) databases
- Independence and ability to work with minimum supervision
- An undergraduate or equivalent degree in a technical discipline is desired, but is not a requirement

THE COMPANY

Constellation HomeBuilder Systems (CHS) is the leading software vendor exclusively focused on the homebuilding industry. Our comprehensive suite of homebuilding software solutions ranges from production and accounting, new home sales and marketing, home warranty and service and homebuilder website solutions. It is North America's fastest growing and most successful provider of fully integrated information management solutions for homebuilders.

Our team is composed of experienced and motivated self-starters who enjoy the thrill of working in a fast-paced environment.

Our parent company is Constellation Software Inc. (CSI), a well-capitalized, publicly traded Canadian software company that specializes in vertical market software (www.csisoftware.com).

The CSI group of companies is a leading developer of technology solutions for vertical markets globally. We are a publicly traded company on the Toronto Stock Exchange (TSX symbol is CSU). We offer the benefit of working with a medium sized company while enjoying the support and opportunity of being part of a large organization.
